## Paper 1: Non-calculator

| Topic | R | A | G |
| :--- | :--- | :--- | :--- |
| Lowest common multiples |  |  |  |
| Interior and exterior angles in polygons |  |  |  |
| Calculating midpoints of straight lines |  |  |  |
| Simplifying algebraic expressions |  |  |  |
| Calculations involving powers and roots |  |  |  |
| Describing correlations of graphs |  |  |  |
| Estimations |  |  |  |
| Percentages of amounts |  |  |  |
| Area problems involving ratio |  |  |  |
| Interpreting quadratic graphs |  |  |  |
| Area of circles and sectors |  |  |  |
| Factorising into double brackets |  |  |  |
| Standard form |  |  |  |
| Proving identities |  |  |  |
| Problems involving time and ratio |  |  |  |
| Box plots |  |  |  |
| Medians and quartiles |  |  |  |
| Venn Diagrams |  |  |  |
| Inequality notation |  |  |  |
| Transformations |  |  |  |
| Plotting coordinates to create polygons |  |  |  |
| Converting recurring decimals into fractions |  |  |  |
| Recurring decimal calculation |  |  |  |
| Exact trig values |  |  |  |
| Functions involving composite and inverse |  |  |  |
| Circle theorems |  |  |  |
| Calculations involving surds |  |  |  |
| Perpendicular lines |  |  |  |
| Gradient of lines |  |  |  |
| Geometric progression |  |  |  |
| Index laws, involving fractional and negatives |  |  |  |
| Vectors |  |  |  |
| Trigonometric graphs |  |  |  |
|  |  |  |  |

## Paper 2: Calculator

| Topic | R | A | G |
| :--- | :--- | :--- | :--- |
| Expanding single brackets |  |  |  |
| Converting decimals into improper fractions |  |  |  |
| Percentages of amounts |  |  |  |
| Pythagoras Theorem |  |  |  |
| Bearings |  |  |  |
| Problems involving money |  |  |  |
| Fractions of amounts |  |  |  |
| Volume of prisms |  |  |  |
| Average speed calculations |  |  |  |
| Sequences involving algebra |  |  |  |
| Set notation |  |  |  |
| Relative frequency |  |  |  |
| Mean from tables |  |  |  |
| Straight line graphs |  |  |  |
| Scales diagrams |  |  |  |
| Estimation |  |  |  |
| Interpreting inequality notation |  |  |  |
| Cumulative frequency graphs |  |  |  |
| Writing appropriate criticisms |  |  |  |
| Completing the square |  |  |  |
| Direct proportion |  |  |  |
| Rearranging formula |  |  |  |
| Problems involving metric units and conversions |  |  |  |
| Factorising into single brackets |  |  |  |
| Distance time graphs |  |  |  |
| Acceleration calculation |  |  |  |
| Algebraic fractions |  |  |  |
| Similar shapes including volume |  |  |  |
| Iterative problems |  |  |  |
| Functions |  |  |  |
| 3D Pythagoras theorem |  |  |  |
| Product rule of counting |  |  |  |
|  |  |  |  |

## Paper 3: Calculator

|  | R | A | G |
| :--- | :--- | :--- | :--- |
| Linear sequence |  |  |  |
| Enlargement |  |  |  |
| Error intervals |  |  |  |
| Cubic graphs |  |  |  |
| Percentage increase and decrease |  |  |  |
| Problems with fractions |  |  |  |
| Primes, cubes and squares |  |  |  |
| Recognising recurring decimals |  |  |  |
| Trigonometry |  |  |  |
| Tree diagrams |  |  |  |
| Simultaneous equations |  |  |  |
| Angles in parallel lines |  |  |  |
| Frequency tables |  |  |  |
| Plotting frequency density graphs |  |  |  |
| Volume of frustums |  |  |  |
| Density calculations |  |  |  |
| Vectors |  |  |  |
| Circle theorems |  |  |  |
| Interpreting quadratic graphs |  |  |  |
| Simplifying algebraic fractions |  |  |  |
| Proving congruence |  |  |  |
| Solving equations with unknowns both sides |  |  |  |
| Interpreting graphs |  |  |  |
| Surface area of prisms |  |  |  |
| Area of a triangle using trigonometry |  |  |  |
| Sine and cosine rule |  |  |  |
| Algebraic ratio |  |  |  |
| Probability | Column vector notation |  |  |
| Equation of straight lines |  |  |  |
