

Biology – Higher – Topic List

<u>Chapter</u>	<u>Topic</u>
1 – Key Concepts	Active Transport, Structure and function of animal cells, Enzymes, Specialised cells – Sperm cells, Epithelial cells
2 – Cells and Control	Differentiation, STEM cells, Cancer, Mitosis
3 – Genetics	DNA extraction (Core practical), Punnett squares, Alleles, Genetic diagrams
4 – Natural Selection and Genetic Modification	Evolution and Charles Darwin
Triple Content Only	Protein Synthesis
