

## KNOWLEDGE ORGANISER ARTIST REFERENCE YR8

**Nancy Standlee:** American fine artist

BORN in 1935 in Texas, USA in a small farming community

Worked as a primary school librarian until 2000

Award winning contemporary artist

Standlee continues to learn more about art through her travels and art workshops

Her images represent the things she has seen and places she has been. Like the goat from the family farm seen below

### Key word definitions

- Collage: an image created by putting lots of pieces of paper together
- Contemporary: working now, something new
- Composition: To put together

When Nancy Standlee isn't taking an art workshop, traveling, or journaling, she's **collecting and hand-painting paper scraps to create colourful collages that evoke the memories and emotions of her past experiences**

The images above are by Pop Artists and fellow American James Rosenquist  
Rosenquist is known for his compositions of different images that show real life to Americans during the 50' and 60's  
This influence is shown in Standlee's work as she does the same but without the images being photo-like and real.  
Standlee wants you have fun with her pictures and to see them how you want to  
Q) How do you see/ what do you see in the goat image?
